

[BINDER]

AUTOMATIC REVERSE RELATED PRODUCTS

For Magento 2

Overview

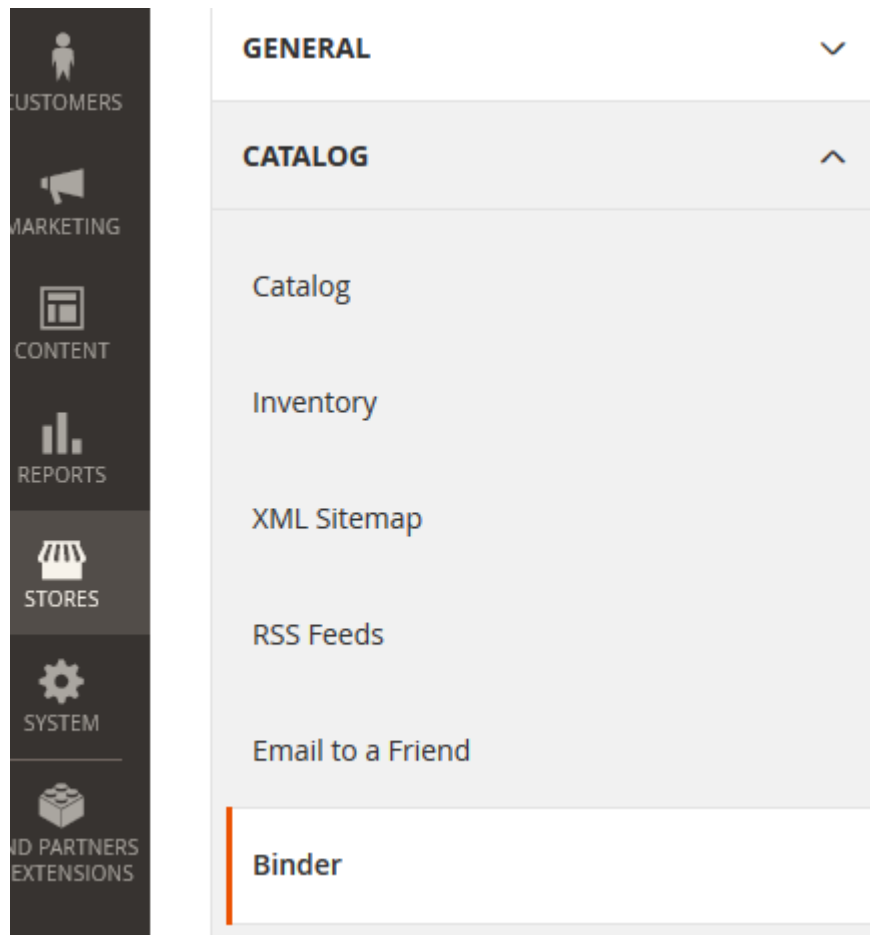

Binder is a simple extension that allows you automatic reverse linking of products in related, cross-sell or up-sell. For example when we set manually for product A related products: B and C, that product B and C has product A as related automatic. The same principle also works when removing related products. This extension is useful, for example, when we selling products of the same type such as music albums, books or games and we want to set automatic related products for the same author.

Installation

- 1) Download the Mware_Binder extension from the Magento Marketplace.
- 2) Unzip the file and put contents in app/code/ directory.
- 3) Run the following commands in an SSH console on the root directory Magento server:
 - a) `php bin/magento module:enable Mware_Binder`
 - b) `php bin/magento setup:upgrade`
 - c) `php bin/magento setup:static-content:deploy`
- 4) Refresh the store cache.
- 5) Log out from the backend and log in again.
- 6) The extension should be ready to use.

Configuration

- 1) Log in to admin panel.
- 2) Go to **Stores >> Configuration >> Catalog >> Binder**.
